**Time and Place:** Tuesday and Thursday 3:30–4:50 pm (Block P)

**Instructor:** Ira Gessel  
Goldsmith 312  
736–3060  
Office Hours: TBA  
email: gessel@brandeis.edu

This course will be introduction to complex analysis at the graduate level. Topics will include
- Power series
- Complex integration
- Cauchy’s integral formula
- Calculus of residues
- The Riemann mapping theorem
- The maximum modulus theorem
- Other topics as time permits

There will be five or six problem sets (approximately every other week). There will be no exams.
