Objectives

After completing this course, students will be able to:

- Use the standard model of supply and demand to predict the effects of market changes
- Describe the necessary conditions for a market of perfect competition
- Compare the behavior of a market of perfect competition with a monopolized market
- Discuss profit maximization and firm production choices
- Define Gross Domestic Product
- Understand the connection between government debt and government deficits
- Use the Time Value of Money to evaluate investment opportunities
- Illustrate the consumer choice problem using indifference curves

Textbook and Resources

Required: Mankiw, N. G. “Principles of Economics,” 7th edition. Earlier editions are fine (If you use an earlier edition, make sure that the material you’re reading agrees with the subject matter rather than the chapter number. Email me if you’re not sure what you should be reading).

This class will rely heavily on the textbook. Students will be at a disadvantage without a copy
that they can consult. Moreover, students will find this a useful resource if they pursue economics or an economics-adjacent field (business, political science, public policy,...)

Class materials (syllabus, assignments, practice exams, additional material) will be posted on the LATTE web site: https://moodle2.brandeis.edu/my/

 Academic Integrity

Students are expected to protect the academic integrity of Brandeis University, as mentioned in the Brandeis University Rights and Responsibilities
https://www.brandeis.edu/studentlife/srcs/index.html

Some relevant highlights of student responsibilities:
- Student submitted work must be the product of that student’s own thought or study with proper attribution and citation.
- Talking during an exam, or possession or use of unauthorized materials, as well as accepting or providing assistance during an examination constitutes academic dishonesty.
- Students may only collaborate on assignments with permission from the instructor.
- Students may not share, sell, or use materials from a previous class to satisfy an assignment in a present course (e.g., Turning in a friend's lab report from last semester).
- Students must obtain permission from both instructors if they wish to submit the same work in more than one course.

I will report every violation of academic integrity.

Grading

Assignments

20% Assignments - Assignments consist of recitation assignments and homework assignments.

Recitation assignments

Recitation assignments are completed during the recitation periods (that are not review or recap periods). These assignments consist of a problem done individually, then another problem done in groups of 4-5. These scores are averaged for the assignment score.

Homework assignments

Homework will be assigned on every Thursday (besides Thursdays with midterms). This homework is due on Monday at the beginning of the class period. This time limit is strict: assignments handed in after instruction has begun will earn a 4 point penalty if handed in during the class period, and an 8 point per day penalty thereafter. Students are encouraged to work with others on these assignments. Please hand in one copy for all students working together, with all of the names listed on the top of the assignment.
For all assignments

There are 11 recitation assignments and 11 homework assignments. The lowest 4 assignment scores will be dropped (and, for some students, an additional 2, see the makeup policy), and the resulting average (plus any extra credit) will be the assignment grade that the student earns. Students should note that working collaboratively on these assignments will help with exam preparation, while passively writing down answers will not. Extra credit that is earned (by, for example, participating in review sessions) will apply only to the assignment grade, and the overall assignment grade is capped at 100% (in other words, extra credit will not improve exam grades).

Exams

Midterm 1 - Thursday, October 3
Midterm 2 - Thursday, November 7

The best midterm score will earn 30% and the other midterm score will earn 20%

30% Final Exam - not cumulative - date to be announced

Makeup policy: Each student begins class with one imaginary token that they can use to either drop the two lowest assignment grades or to take a makeup exam rather than the scheduled exam. After this token is used, a rigorously-documented good excuse is required for taking a makeup exam (examples of a good excuse: hospitalization, communicable disease; examples that do not meet the definition of a good excuse: a car accident without injury, a traffic jam).

Please note that, due to the low number of makeup exam takers, the lowest curve of all exam versions will be applied to makeup exams

Grade needs and notes

- I will ask students at the beginning of class what grade they want or need, and use that information to make sure that the student is keeping pace with their desire/requirement.
- This class is designed to require nine hours of work outside of class to absorb all of the material
- No individual extra credit is ever assigned (that is, nothing is offered to a student that is not offered to the entire class).
- Requests to regrade assignments or exams will result in the regrading of the entire assignment/exam, which may, in rare cases, earn the student a lower assignment/exam grade.
- Begging for a better grade after grades have been posted is unseemly and will not change the grade the student earned in this class.

Attendance

Lecture and recitation attendance is strongly positively correlated with class performance (that is, people that show up to all classes and recitations tend to do better on assignments and tests). Please plan on attending class and recitation regularly. If you miss a class, borrow notes from a classmate. Lecture material will not be repeated in bulk during office hours.

Please note: A grade of B+ or higher is required in this class if you decide that an economics major or minor is the path for you.

Office hours

Office hours are times when students may see the instructor or a teaching assistant without any prior appointment. Students often come to office hours to get help on an assignment, an in-class example, or an upcoming exam. I also welcome students who want to talk about other concerns or interests either inside or outside the classroom.

Email response time

My email address is geoffclarke@brandeis.edu. I promise to reply to all emails within 24 hours (48 hours on weekends/holidays). If you don’t hear from me in that time, please email me at geoff.clarke@gmail.com.

Evacuation

In the event of a fire alarm or other emergency, the class will immediately evacuate and gather at the parking lot across Loop Road, unless otherwise directed by emergency personnel.
Accommodations

Brandeis seeks to welcome and include all students. If you are a student who needs accommodations as outlined in an accommodations letter, please talk with me and present your letter of accommodation as soon as you can. I want to support you.

In order to provide test accommodations, I need the letter more than 48 hours in advance. I want to provide your accommodations, but cannot do so retroactively. If you have questions about documenting a disability or requesting accommodations, please contact Student Accessibility Support (SAS) at 781.736.3470 or access@brandeis.edu.

Electronic device policy

Persuasive early evidence (and my own experience) shows that students achieve higher grades when attending class without electronic devices present. Therefore, no electronic devices are allowed in class. Students may leave the room if they need to communicate electronically. This does not apply to documented accommodations, as described above.

Aspirational Course Outline[1]

Wednesday, August 28
Class cancelled

Thursday, August 29
The Production Possibility Frontier & Opportunity Cost
Reading: Chapter 2

Monday, September 2
No Class: Labor Day

Tuesday, September 3
Recitation: Introduction

Wednesday, September 4
Production Possibility Frontier II
Reading: Chapter 3

Thursday, September 5
Gains from Trade
Reading: Sections 4.1 to 4.3

[1] Subject to change
Monday, September 9
Gains from Trade II
Reading: Sections 4.4 & 4.5

Tuesday, September 10
Recitation: Demand

Wednesday, September 11
Gains from Trade III
Reading: Chapter 5

Thursday, September 12
Demand I
Note: Instructor office hours end at 3pm

Monday, September 16
Demand II

Tuesday, September 17
Recitation: Demand II

Wednesday, September 18
Supply I

Thursday, September 19
Supply II

Monday, September 23
Equilibrium I

Tuesday, September 24
Recitation: Efficiency

Wednesday, September 25
Equilibrium II

Thursday, September 26
Equilibrium III/Elasticity
Note: No instructor office hours

Monday, September 30
No Class: Rosh Hashanah

Tuesday, October 1
No Recitation: Rosh Hashanah

Wednesday, October 2
Elasticity and review

Thursday, October 3
(Monday schedule)
First midterm exam
No Instructor Office Hours: Monday schedule

Monday, October 7
Price Controls/First Midterm Recap
Reading: Section 6.1

Tuesday, October 8
No Recitation: Yom Kippur Eve

Wednesday, October 9
No Class: Yom Kippur

Thursday, October 10
Consumer and Producer Surplus
Reading: Sections 7.1 & 7.2

Monday, October 14
No Class: Indigenous Peoples Day/Columbus Day/Sukkot

Tuesday, October 15
(Monday schedule)
Market Efficiency
Reading: Sections 7.3 & 7.4
No Recitation or Instructor Office Hours: Monday schedule

Wednesday, October 16
Sales Taxes
Reading: Sections 6.2, 6.3, 8.1, 8.2 (skim 8.3 and 8.4)

Thursday, October 17
Externalities
Reading: Section 10.1

Monday, October 21
No Class: Shemini Atzeret

Tuesday, October 22
Recitation: Supply Curves

Wednesday, October 23
Review of post-exam concepts I

Thursday, October 24
Review of post-exam concepts II

Monday, October 28
Review of post-exam concepts III

Tuesday, October 29
Recitation

Wednesday, October 30
Review of post-exam concepts IV

Thursday, October 31
Externalities II

Monday, November 4
Externalities III

Tuesday, November 5
Recitation

Wednesday, November 6
Public Goods I

Thursday, November 7
Second Midterm Exam

Monday, November 11
Externalities IV
Tuesday, November 12
Recitation: Recap second midterm

Wednesday, November 13
Public Goods II

Thursday, November 14
Measuring the Total Output of a Nation
Reading: Chapter 23

Monday, November 18
GDP II
Reading: Section 24.1

Tuesday, November 19
Recitation: The Government and the Market

Wednesday, November 20
Measuring Price Level and Inflation
Reading: Sections 24.2, 24.3, 26.1, & 26.2

Thursday, November 21
Inflation II
Reading: Sections 26.3 & 26.4

Monday, November 25
Real and Nominal rates/Introduction to Financial Markets
Reading: Sections 28.1 & 28.2

Tuesday, November 26
Recitation: Financial Markets

Wednesday, November 27
No Class: Thanksgiving

Thursday, November 28
No Class: Thanksgiving

Monday, December 2
Financial Markets II
Reading: Chapter 29 and Supplementary Notes
Tuesday, December 3
Recitation: Inflation and financial markets

Wednesday, December 4
Government Deficits and the National Debt

Thursday, December 5
The Federal Reserve, Open Market Operations, and Exchange Rates/Measuring Unemployment

Monday, December 9
Consumer choice
Reading: Chapter 21

Tuesday, December 10
Recitation: Final exam review

December 13
Final Exam - 9:15-12:15
Location to be announced
